

FM 20

Digital Mailing System

Designed with flexibility in mind, the FM20™, powered by Secap's IntelliLink™ technology represents the ultimate answer to the mailing needs of busy businesses. The latest digital technology makes processing mail quiet and efficient the perfect office companion.

How will your business benefit

- **Future-proof mailing** - IntelliLink™ connects Secap's FM20™ to a secure server, via the Internet, enabling services such as postal tariff changes, software updates and advertising slogans to be downloaded quickly and effortlessly.
- **Correct value postage** – every letter, every time - The FM20™ incorporates a 2.5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value.
- **Fast, accurate postage re-crediting** - Replenish your meter 24-hours a day with simple one-touch refills via Postage-By-Phone quick, secure and hassle-free.
- **Easy to use** - All controls are fully integrated on one clear control panel with user-friendly instructions to guide the operator through each stage of processing mail.
- **Streamlined processing** - Efficiently frank and seal mail pieces up to 9.5mm thick, whilst larger mail is quickly processed with self adhesive tape strips. Mailing couldn't be simpler with up to 5 presets for your most commonly used jobs.
- **Monitor postal spend** - Control postage costs with tracking and reporting for up to 25 named departmental or client accounts.
- **Strengthen your brand** - Enhance standard envelopes into eye-catching branded mail pieces with tailor made customised logos.
- **Track incoming mail** - Date and time stamping incoming post ensures mail is handled efficiently.
